

Spain is going to send 33,000 more troops to Cuba for the purpose of quelling the rebellion. The United States is going to sell to the United States for what ever she can get.

The midwinter fair at San Francisco was a memorable event for the city and left profit enough to erect a public museum in one of the parks. Nearly all the first-class exhibitions have paid their way by being wisely liberal.

The records show that 685 firms and corporations have voluntarily advanced the wages of 514,000 employees during the present year, which is more than all the strikes have ever done for the interests of labor.

Municipal policemen have been officially forbidden to talk to representatives of the press or to members of the Reichstag of the Bavarian diet. In the first case the punishment is a week's imprisonment; in the latter it is still heavier.

Retired colonels and majors were among the more than 1,000 applicants for the place of hallkeeper to the Armours and Braziers company, in London, which was recently vacated. The salary is \$1,000 and \$250 for extra services.

The knighting ceremony at Windsor was a fair affair. In the case of Sir Henry Irving the queen is said to have shown marked interest. According to a London paper, in this case alone were added the words, "I have very much pleasure."

The French artificial pearl is produced by boring a hole in the shell of the oyster and introducing a small piece of glass, which the animal covers with "nacre," or mother of pearl, to stop the irritation. Such pearls are flat on one side and of less value than those produced naturally.

The New York Sunday shaving law has been declared constitutional, notwithstanding the fact that New York city and Saratoga are exempted from its provisions. It thus seems that a state may declare a thing to be against good morals in a general way, but entirely consistent with morality in special localities.

Man asks for protection against mercenary women in Bengal. Rabi Basak Lal Roy wants the government to help him to suppress the excessive expense of Hindu marriages, and especially the dowry of the brides, as the temptation of selling the son to the highest bidder has become too great to be resisted.

In the manufacture of watch-glasses balls are usually blown to a size of about two feet in diameter, and at the exhibition of 1883 there was shown a ball of considerably over a yard in diameter, arrived at by a system in which compressed air is employed. No less than 3,000 watch-glasses were obtained from this bubble.

Light single railroads on which large wheelbarrows are beginning to be fastened to small iron cross-pieces, the ends joined by shafts, and they can easily be put in place and removed. The tracks can be drawn by horses or used on French farms. The rails are cheap and are balanced by a heavy crawler held by the man who pushes them.

The manufacture of snuff, as an industry, has never been of any importance in Denmark, and is practically of no significance whatever. While the use of snuff was very general all over Europe one hundred years ago, it is now rarely used in Denmark, except by Swedish people living here and by the old men among the peasants, who believe that the use of snuff helps the failing eyesight.

The Atlanta people have had the wisdom and good taste to abandon the idea of making the mock bull fight a feature of their exposition. They are to be congratulated on the decision. Nothing could be more out of place or monstrous in an industrial exposition than an imported barbarity like the bull fight, and nothing could be more cheapening to the effect of the whole affair than a "mock" anything.

Ireland is still solid for home rule, as is evident from the election returns for the Irish National Convention. The Irish are more united than they have been in the last one. But with England hostile to that policy Irish demands for it will not count for much. The size of the Tory-Unionist majority in the next parliament shows that if any concessions are made to the Irish they will be on different lines from those on which recent projects in that direction were drawn.

A prominent geologist, who has been looking into the formation of the bed of the Ohio river, forty-three miles below Pittsburgh, says the old river bed is 200 feet above the present water level, and he finds there stones of Canadian granite, whose nearest home now is on the Canadian side of Lake Erie. In the glacial gravel came across a rough arrow head, which he attributes to the glacial period, perhaps 30,000 years ago. The testimony of the rocks is in the nature of sensational news, in spite of its great antiquity.

The woman on the wheel is provoking a good deal of discussion among the medical writers. Some of them are contending that she is certain to be injured by such exercise, but the prevailing opinion seems to be that she will derive benefit from it. One of them calls attention particularly to the fact that women are not by nature weaker than men, but that they dress with such disregard of natural laws that their strength is impaired, and the bicycle forces them to correct this fault by adopting a costume that is calculated to promote health and general vigor.

The business passing through the America ship canal at the Soo is increasing at a prodigious rate, the freight tonnage for the month of July having reached a total of 2,770,000, which goes ahead of any previous month's tonnage by 157,000. The aggregate for this year is 1,900,000 tons, that of 1894. The Soo can now carry a great deal more freight in six months than the Suez canal does in twelve, and at the present rate of increase the Suez will be completely displaced in a few years. Another point to be considered in this relation is the rapid development of water transportation.

A festival and auction will be held by the ladies of the Norwegian Lutheran church, at the church building on 7th street south, on Saturday evening, August 24th. Refreshments will be served and a general good time is anticipated. All are invited.

Mrs. Fannie E. Smith and Mrs. N. McFadden will give a party this evening to a large number of their friends. Elaborate arrangements are being made for the entertainment of the guests, and out-door dancing will be indulged in if the evening is favorable.

On Monday evening a social dance was given at Peabody's Hall, on 6th street, by Mrs. J. S. Drysdale, assisted by Miss Tena Drysdale, in honor of their guest, Miss Jessie Hagelson, of Minneapolis. Refreshments were served and all had a very enjoyable time.

O. H. Havill was the administrator of the estate of J. E. Hayward, on 6th street, and some of the heirs objected to his fee of \$2,500. The probate court cut the fees down to \$1,500, and even that didn't suit the heirs. Now the district court is considering the matter. For services during the same time the administrator's attorneys wanted \$4,000, and they, too, are in the court.—Transcript.

C. E. Watkins, superintendent of the state fish hatchery at St. Paul, spent Tuesday and Wednesday in the city, which was his first visit to Brainerd. While here he visited the lake which the state has leased from Sheriff Spalding for breeding bass, and was very much pleased with the progress which is being made. Bass are about the only fish which will not breed in captivity, and in order to supply the demand for bass fry it was necessary to secure a small lake free from other fish. Mr. Watkins took about 1,000 young bass home with him for distribution.

The Northern Pacific railroad company is preparing to fit up four cars with the products of the western states through which their lines run, and these cars will be exhibited in various parts of the country. No better advertisement for any locality could be devised, and the people of Crow Wing county have a chance to be represented. J. M. Elder has received cards which will be attached to the different exhibits, which gives the name of the man growing the grain or whatever the exhibit may be and various other data. Those who desire to be represented can leave samples at Mr. Elder's office on Sixth street, who will send it in free of charge.

Rather Fishy.

Powers, a merchant at Itasca's capital, while fishing in Lake Pokegama hooked a salmon trout 30 inches in length and 26 pounds in weight. Will Make An Exhibit.

A meeting of the precinct committee, appointed to act in the matter of collecting an exhibit for Crow Wing county at the state fair, was held at the court house on Tuesday at 11 a. m., the meeting being called to order by Prof. A. J. Wilson. R. H. Paine was elected chairman, and W. H. Everest, secretary.

A roll call of the committees was made and it was found that each precinct excepting Deerwood, Pine River, St. Matthias and the Third ward was represented. A motion was made that an executive committee of seven be elected, two from Brainerd, two from the First commissioner's district, two from the Fifth commissioner's district, and one at large. A motion was carried that the members be elected by the committees from the respective districts. The election resulted as follows:

Brainerd—J. T. Frater and Mrs. H. Thiviot.

First District—W. H. Everest and Mrs. H. C. Hinghey.

Fifth District—G. A. Hunt and A. R. Cass.

At Large—J. A. Wilson.

J. L. Borg was substituted for J. L. Jack, committee man from Ft. Ripley, and Wm. Shontell was appointed from the Fifth ward in place of R. H. Paine, who could not attend to the duties. David Archibald, of Bay Lake, takes Robt. Mayhau's place.

The executive committee met Tuesday afternoon and G. A. Hunt, of Bay Lake, was elected chairman; J. T. Frater, treasurer; W. H. Everest, secretary; Mrs. H. Thiviot, assistant secretary.

The chairman and secretaries were requested to ask an appropriation of \$150 from the board of county commissioners to pay the expense of making the exhibit.

It was decided to receive articles for exhibition from Monday morning, Sept. 2nd, until Thursday evening, Sept. 5th, when the exhibits will have to be shipped so as to be at the State Fair in time to be placed on exhibition Monday morning, Sept. 8th.

It was decided to request the newspapers in the city to call the attention of the precinct committees to the fact that said committees will be dependent upon to collect and deliver in Brainerd the exhibits of their respective districts.

The persons employed to remain with the exhibit will receive no other compensation than expenses and will be residents of the county.

A Prominent Citizen Leaves.

Ex-alderman Wm. Williamson, of the grocery firm of Smallwood & Williamson, will shortly leave Brainerd after a residence here of over eight years. He has had two very fine positions offered him, one as general foreman of the Duluth & Mesaba railroad shops at Duluth, and another as superintendent of the Minnesota Iron Company's new plant at Minneapolis. The latter company is a new concern, and expects to have nearly 500 men employed when it gets in full operation. Mr. Williamson was at Duluth the first of the week when the Duluth position was offered him, and is now at Minneapolis looking over the ground there. He will return home to-morrow, when he will definitely decide which position he will take. Mr. Williamson is abundantly capable of filling any position of this character. He has a splendid record here as a mechanic, having entered the shops here as an ordinary machinist, and rapidly won his way to the position of general foreman. He has also been active in public affairs, representing the Third ward for several years in the city council, of which body he was president for a couple of years. He has sold his interest in the grocery business to Mr. Smallwood, his partner, and will leave for his new field of labor before the 1st of September. His departure will be greatly regretted by all classes of citizens.

At the M. E. Church.

The McKanlass Colored Concert Co. will give an entertainment at the M. E. church on Monday evening, August 26th, under the auspices of the Ladies Aid. Admission 50 cents, children 25 cents. In speaking of this company the Cloquet Pine Knot says:

A complete change of programme was presented, and many of the numbers were of the highest class. McKanlass was at his best, and if necessary could have furnished amusement for the entire evening. But this was far from the intention of the company each one being eminently capable to do the part assigned to them. Master Willie in his musical turn with the guitar pleased the audience, and his dance simply took them by storm. He is one of the cleverest artists in that line ever seen in Cloquet. Miss Robinson sang with her usual success. Her rendition of several classic numbers were greatly appreciated by the music lovers in the audience. She possesses a voice of wonderful volume and clearness and careful training has rendered it perfect. Miss Trisio and little Patti added largely to the evening's entertainment. The former sang the "Sweetest Story Ever Told" very creditably while the latter displayed her ability as a dancer as well as a singer. The jokes were good, many being new. In fact the entertainment was all and more than was expected and should have earned more liberal patronage.

C. E. Watkins, superintendent of the state fish hatchery at St. Paul, spent Tuesday and Wednesday in the city, which was his first visit to Brainerd. Rather Fishy.
A. G. Bernard came down from Grand Rapids yesterday, and last evening was telling an almost incredible fish story. H. D. Powers, a merchant at Itasca's camp, while fishing in Lake Pokegama hooked a salmon trout 30 inches in length and 26 pounds in weight. Mr. Powers was compelled to play the fish a whole hour and to put two shots in its head before he could land it. The monstrous creature will be on display today in the window of the ticket office of the Duluth & Winnipeg railway.—Duluth Tribune.

Will Make An Exhibit.
A meeting of the precinct committee, appointed to act in the matter of collecting an exhibit for Crow Wing county at the state fair, was held at the court house on Tuesday at 11 a. m., the meeting being called to order by Prof. A. J. Wilson. R. H. Paine was elected chairman, and W. H. Everest, secretary.
A roll call of the committees was made and it was found that each precinct, excepting Deerwood, Pine River, St. Matthews and the Third ward was represented. A motion was made that an executive committee of seven be elected, two from Brainerd, two from the First commissioner district, two from the Fifth commissioner district, and one at large. A motion was carried that the members be elected by the committees from the respective districts. The election resulted as follows:
Brainerd—J. T. Frater and Mrs. H. Theviot.
First District—W. H. Everest and Mrs. H. C. Hughes.
Fifth District—G. A. Hunt and A. R. Cass.
At Large—J. A. Wilson.
J. L. Berg was substituted for J. L. Jack, committeeman from Ft. Ripley, and Wm. Shontell was appointed from the Fifth ward in place of R. H. Paine, who could not attend to the duties. David Archibald, of Bay Lake, takes Rolf Mayhau's place.
The executive committee met Tuesday afternoon and G. A. Hunt, of Bay Lake, was elected chairman; J. T. Frater, treasurer; W. H. Everest, secretary; Mrs. H. Theviot, assistant secretary.
The chairman and secretaries were requested to ask an appropriation of \$150 from the board of county commissioners to pay the expense of making the exhibit.
It was decided to receive articles for exhibition from Monday morning, Sept. 2nd, until Thursday evening, Sept. 5th, when the exhibits will have to be shipped so as to be at the State Fair in time to be placed on exhibition Monday morning, Sept. 9th.
It was decided to request the newspapers in the city to call the attention of the precinct committees to the fact that said committees will be depended upon to collect and deliver in Brainerd the exhibits of their respective districts.
The persons employed to remain with the exhibit will receive no other compensation than expenses and will be residents of the county.

A Prominent Citizen Leaves.
Ex-alderman Wm. Smallwood, of the grocery firm of Smallwood & Williamson, will shortly leave Brainerd after a residence here of over eight years. He has had two very fine positions offered him, one as general foreman of the Duluth & Mesaba railroad shops at Duluth, and another as superintendent of the Minnesota Iron Company's new plant at Minneapolis. The latter company is a new concern, and expects to have nearly 500 men employed when it gets in full operation. Mr. Williamson was at Duluth the first of the week when the Duluth position was offered him, and is now at Minneapolis looking over the ground there. He will return home to-morrow, when he will definitely decide which position he will take. Mr. Williamson is abundantly capable of filling any position of this character. He has a splendid record here as a mechanic, having entered the shops here as an ordinary machinist, and rapidly won his way to the position of general foreman. He has also been active in public affairs, representing the Third ward for several years in the city council, of which body he was president for a couple of years. He has sold his interest in the grocery business to Mr. Smallwood, his partner, and will leave for his new field of labor before the 1st of September. His departure will be greatly regretted by all classes of citizens.

At the M. E. Church.
The McKanless Colored Concert Co. will give an entertainment at the M. E. church on Monday evening, August 26th, under the auspices of the Ladies' Aid. Admission 50 cents, children 25 cents. In speaking of this company the Cloquet Pine Knot says:
"A complete change of programme was presented, and many of the numbers were of the highest class. McKanless was at his best, and if necessary could have furnished amusement for the entire evening. But this was far from the intention of the company each one being eminently capable to do the part assigned to them. Master Willie in his musical turn with the guitar pleased the audience, and his dance simply took them by storm. He is one of the cleverest artists in that line ever seen in Cloquet. Miss Robinson sang with her usual success. Her rendition of several classic numbers were greatly appreciated by the music lovers in the audience. She possesses a voice of wonderful volume and clearness and careful training has rendered it perfect. Miss Truxie and little Patti added largely to the evening's entertainment. The former sang the 'Sweetest Story Ever Told' very creditably while the latter displayed her ability as a dancer as well as a singer. The jokes were good, many being new. In fact the entertainment was all and more than was expected and should have received more liberal patronage."
Deaths.
Peter Hoffman, of Stony Brook, died on Monday of dysentery, aged 40 years. The funeral took place on Tuesday.
Arvo, the 5-months-old son of Mr. and Mrs. Sanders, of East Brainerd, died of cholera infantum on Saturday, the funeral occurring Sunday.

The Marie Wellesley Stock Co.
Arrangements have been completed for a two week's engagement of this popular company at the Sleeper Opera House, commencing Monday, August 26th, at people's popular prices. The best reserve seats 25c. The entire gallery 10c. This company is positively the best popular priced company traveling, and their engagement in Brainerd promises to be one of the most successful ever played here. The company carries special scenery, and presents some of the leading successes.
A large number of Brainerd people will remember Miss Marie Wellesley as the leading lady of the People's Theatre Stock Company, in Minneapolis, for a number of years, where she won for herself an enviable reputation, and to-day ranks high among the leading actresses of the American stage. Her support is exceptionally strong, among whom are the clever comedians B. W. Wilson, Richard Ober, J. Rush Broun, Ray Lewis and many others. On Monday evening the popular southern play "On the Swane River" will be produced for the first time in the city, using their own special scenery. Secure your seats early at the McFadden Drug Co's store. On Monday evening ladies will be admitted free when accompanied by a paid ticket. The LaCrosse Republican says of the company:
"The Marie Wellesley players must have felt highly gratified at the cordial reception given them at their return engagement at the New LaCrosse theatre last night. There was a very large audience present, and the indications are that they will do even a larger business than they did during their previous engagement, and that was remarkably great. They have the reputation of being the best low priced company that ever played in LaCrosse, and the manifestations of the approval and the hearty applause accorded last evening sustained it very emphatically. The play last night, 'The Factory Girl' was well staged and produced in an acceptable manner, the players assuming their various parts with their wonted life and ability."

A Prolific Cow.
Speaking about cows and cattle, Crow Wing county takes the cake. It has a cow within its borders that has a record as a breeder that can't be beaten. The cow is the property of Wm. Peterson, a farmer living near Long Lake. This cow last October gave birth to two fine calves, and about two weeks ago gave birth to triplets, three healthy young bovines, all of which are growing finely. Here is a record we challenge any cow in the world to equal—five fine healthy calves in 10 months.

C. E. Watkins, superintendent of the state fish hatchery at St. Paul, spent Tuesday and Wednesday in the city, which was his first visit to Brainerd. While here he visited the lake which the state has leased from Sheriff Spaulding for breeding bass, and was very much pleased with the progress which is being made. A meeting of the precinct committees, appointed to act in the matter of collecting an exhibit for Crow Wing county at the state fair, was held at the court house on Tuesday at 11 a. m., the meeting being called to order by Prof. A. J. Wilson, R. H. Paine was elected chairman, and W. H. Everett, secretary.

A roll call of the committees was made and it was found that each precinct excepting Deerwood, Pine River, St. Matthias and the Third ward was represented. A motion was made that an executive committee of seven be elected, two from Brainerd, two from the First commissioner district, two from the Fifth commissioner district, and one at large. A motion was carried that the members be elected by the committees from the respective districts. The election resulted as follows:

Brainerd—J. T. Frater and Mrs. H. Theviot.
First District—W. H. Everett and Mrs. H. C. Hinghey.

Fifth District—G. A. Hunt and A. R. Cass.
At Large—J. A. Wilson.

J. L. Berg was substituted for J. L. Jack, committeeman from Ft. Ripley, and Wm. Shontell was appointed from the Fifth ward in place of R. H. Paine, who could not attend to the duties. David Archibald, of Bay Lake, takes Robt. Mayhew's place.

The executive committee met Tuesday afternoon and G. A. Hunt, of Bay Lake, was elected chairman; J. T. Frater, treasurer; W. H. Everett, secretary; Mrs. H. Theviot, assistant secretary.

The chairman and secretaries were requested to ask an appropriation of \$150 from the board of county commissioners to pay the expense of making the exhibit.

It was decided to receive articles for exhibition from Monday morning, Sept. 2nd, until Thursday evening, Sept. 5th, when the exhibits will have to be shipped so as to be at the State Fair in time to be placed on exhibition Monday morning, Sept. 8th.

It was decided to request the newspapers in the city to call the attention of the precinct committees to the fact that said committees will be depended upon to collect and deliver in Brainerd the exhibits of their respective districts.

The persons employed to remain with the exhibit will receive no other compensation than expenses and will be residents of the county.

A Prominent Citizen Leaves.

Ex-alderman Wm. Williamson, of the grocery firm of Smallwood & Williamson, will shortly leave Brainerd after a residence here of over eight years. He has had two very fine positions offered him, one as general foreman of the Duluth & Mesaba railroad shops at Duluth, and another as superintendent of the Minnesota Iron Company's new plant at Minneapolis. The latter company is a new concern, and expects to have nearly 500 men employed when it gets in full operation. Mr. Williamson was at Duluth the first of the week when the Duluth position was offered him, and is now at Minneapolis looking over the ground there. He will return home to-morrow, when he will definitely decide which position he will take. Mr. Williamson is abundantly capable of filling any position of this character. He has a splendid record here as a mechanic, having entered the shops here as an ordinary machinist, and rapidly won his way to the position of general foreman. He has also been active in public affairs, representing the Third ward for several years in the city council, of which body he was president for a couple of years. He has sold his interest in the grocery business to Mr. Smallwood, his partner, and will leave for his new field of labor before the 1st of September. His departure will be greatly regretted by all classes of citizens.

At the M. E. Church.

The McKanlass Colored Concert Co. will give an entertainment at the M. E. church on Monday evening, August 26th, under the auspices of the Ladies' Aid. Admission 50 cents, children 25 cents. In speaking of this company the Clouget Pine Knot says:

A complete change of programme was presented, and many of the numbers were of the highest class. McKanlass was at his best, and if necessary could have furnished amusement for the entire evening. But this was far from the intention of the company each one being eminently capable to do the part assigned to them. Master Willie in his musical turn with the guitar pleased the audience, and his dance simply took them by storm. He is one of the cleverest artists in that line ever seen in Clouget. Miss Robinson sang with her usual success. Her rendition of several classic numbers were greatly appreciated by the music lovers in the audience. She possesses a voice of wonderful volume and clearness and careful training has rendered it perfect. Miss Truxie and little Patti added largely to the evening's entertainment. The former sang the "Sweetest Story Ever Told" very creditably while the latter displayed her ability as a dancer as well as a singer. The jokes were good, many being new. In fact the entertainment was all of more than was expected and should have earned more liberal patronage.

The Marie Wellesley Stock Co.

Arrangements have been completed for a two week's engagement of this popular company at the Sleeper Opera House, commencing Monday, August 26th, at people's popular prices. The best reserve seats 25c. The entire gallery 10c. This company is positively the best popular priced company traveling, and their engagement in Brainerd promises to be one of the most successful ever played here. The company carries special scenery, and presents some of the leading successes.

A large number of Brainerd people will remember Miss Marie Wellesley as the leading lady of the People's Theatre Stock Company, in Minneapolis, for a number of years, where she won for herself an enviable reputation, and to-day ranks high among the leading actresses of the American stage. Her support is exceptionally strong, among whom are the clever comedians B. W. Wilson, Richard Ober, J. Rush Broun, Ray Lewis and many others. On Monday evening the popular southern play "On the Swanne River" will be produced for the first time in the city, using their own special scenery. Secure your seats early at the McFadden Drug Co's store. On Monday evening ladies will be admitted free when accompanied by a paid ticket. The LaCrosse Republican says of the company:

The Marie Wellesley players must have felt highly gratified at the cordial reception given them at their return engagement at the New LaCrosse theatre last night. There was a very large audience present, and the indications are that they will do even a larger business than they did during their previous engagement, and that was remarkably great. They have the reputation of being the best low priced company that ever played in LaCrosse, and the manifestations of the approval and the hearty applause accorded last evening sustained it very emphatically. The play last night, "The Factory Girl" was well staged and produced in an acceptable manner, the players assuming their various parts with their wonted life and ability.

A Prolific Cow.

Speaking about cows and cattle, Crow Wing county takes the cake. It has a cow within its borders that has a record as a breeder that can't be beaten. The cow is the property of Wm. Peterson, a farmer living near Long Lake. This cow last October gave birth to two fine calves, and about two weeks ago gave birth to triplets, three healthy young bovines, all of which are growing finely. Here is a record we challenge any cow in the world to equal—five fine healthy calves in 10 months.
